## Lively Berlin-Tour Art-Excursion and Neighbourhood-Experience

ART+IMAGE invites you to a diverse Berlin-Tour, because rarely is a city undergoing as many constant and continuing changes as Berlin. We make history and its stories come alive and plunge with you into experiencing the great metropolis, discovering hidden corners without neglecting the famous sights.

For a creative break, we will visit the artist Julia Lipinsky within an art-house community in Kreuzberg. She opens - exclusively for us - her design studio. There we will see monumental GIANT FLOWERS, extra large flowers made from fabrics, currently high in demand for decorating event locations.

We then will raffle off the spots for the following 4 groups for the next two hours.

- **Oldie-Beetles** are there for your own driving experience.
- Berlin is the **start-up stronghold** of Germany: Visit to the start-up scene and to the headquarters of eTukTuk. The ride over there is already half the fun. If you want, you can drive the **eTukTuk-limousine** yourselves.
- **Everyday live, art, fashion:** a stroll through the side roads and backyards in the district of Berlin - Mitte.
- **Creative "Kreuzberg"!** An ideal starting point to witness art projects and visit art studios of all sorts. We will meet the art-project artists Ernst Handl and Kirsten Hense in their studio.

Alle Touren enden wieder im Tagungshotel MOA.

Maria Pelzer + Katja Baumeister-Frenzel wünschen viel Vergnügen bei der Spurensuche !
